Index of Housing Characteristic Tables

Characteristics of New Single-Family Houses Completed

Table	Page
Presence of Air Conditioning	5
Number of Bathrooms	25
Number of Bedrooms	45
Number of Bathrooms by Number of Bedrooms	65
Type of Construction Method	74
Principal Type of Exterior Wall Material	86
Secondary Type of Exterior Wall Material	106
Secondary Wall Material by Brick Primary Wall Material	118
Secondary Wall Material by Wood Primary Wall Material	123
Secondary Wall Material by Stucco Primary Wall Material	128
Secondary Wall Material by Vinyl Siding Primary Wall Material	133
Secondary Wall Material by Fiber Cement Primary Wall Material	138
Secondary Wall Material by 'Other' Primary Wall Material	143
Number of Fireplaces	148
Type of Financing	168
Type of Foundation	180
Type of Heating Fuel	200
Type of Heating System	220
Type of Heating Fuel by Type of Heating System	240
Presence of Outdoor Features	254
Type of Parking Facility	262
Square Feet of Floor Area	282
Median and Average Square Feet	290
Median and Average Square Feet by Type of Financing	294
Number of Stories	298
Metropolitian Area Status	306

Characteristics of Units in New Multifamily Buildings Started

Characteristics of New Multifamily Buildings Completed

Table	Page
Number of Floors	407
Units per Building	413
Presence of Air Conditioning	422
Type of Heating Fuel	431
Presence of Heat Pump	440
Presence of Fireplace	449
Construction Method	455

Characteristics of New Single-Family Houses Sold

Table	Page
Presence of Air Conditioning	461
Number of Bathrooms	470
Number of Bedrooms	479
Number of Bathrooms by Number of Bedrooms	488
Principal Type of Exterior Wall Material	496
Secondary Type of Exterior Wall Material	505
Secondary Wall Material by Brick Primary Wall Material	514
Secondary Wall Material by Wood Primary Wall Material	518
Secondary Wall Material by Stucco Primary Wall Material	522
Secondary Wall Material by Vinyl Siding Primary Wall Material	526

Secondary Wall Material by Fiber Cement Primary Wall Material	530
Secondary Wall Material by 'Other' Primary Wall Material	533
Number of Fireplaces	537
Type of Financing	546
Type of Foundation	555
Type of Heating Fuel	564
Type of Heating System	573
Type of Heating Fuel by Type of Heating System	582
Lot Size (Includes Median and Average Lot Size)	594
Type of Parking Facility	606
Price per Square Foot (Includes Median and Average Price Per Square Feet)	615
Sales Price Ranges	627
Median and Average Sales Price	633
Square Feet of Floor Area (Includes Median and Average Square Feet)	639
Number of Stories	651
Metropolitan Area Status (Includes Design Type)	660

Characteristics of New Contractor-Built Houses Started

Table	Page
Contract Price Ranges (Includes Median and Average Contract Price)	669
Contract Price per Square Foot Ranges (Includes Median and Average Contract	
Price Per Square Foot)	672

Note: In the electronic PDF version, clicking on the bookmark icon (upper left corner of document) will allow you to easily navigate from table to table. Older versions of Adobe Acrobat may not support this feature.

RSE	2	6	14	(NA)	(NA)	(NA)

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹Includes houses built for rent (not shown separately).

RSE	3	6	15	(NA)	(NA)	(NA)

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

RSE	2	19	16	7	10	(NA)	(NA)	(NA)	(NA)	(NA)

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹Includes houses built for rent (not shown separately).

 $^{^{2}}$ Includes 2 1/2 bathrooms or more for years 1986 and earlier.

RSE	3	23	18	8	12	(NA)	(NA)	(NA)	(NA)	(NA)	

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

²Includes 2 1/2 bathrooms or more for years 1986 and earlier.

RSE	20	33	24	33	17	(NA)	(NA)	(NA)	(NA)	(NA)

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹"Contractor-Built" houses are built for owner occupancy on the owner's land under the supervision of a general contractor.

²Includes 2 1/2 bathrooms or more for years 1986 and earlier.

RSE	20	31	32	32	34	(NA)	(NA)	(NA)	(NA)	(NA)

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

²Includes 2 1/2 bathrooms or more for years 1986 and earlier.

RSE	2	13	6	7	(NA)	(NA)	(NA)	(NA)

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹Includes houses built for rent (not shown separately).

RSE	3	15	7	8	(NA)	(NA)	(NA)	(NA)

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes houses built for rent (not shown separately).

² Includes concrete block, stone, aluminum siding, and other types. Data prior to 2005 include fiber cement. Data prior to 1992 include vinyl siding.

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

^{1&}quot;Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

² Includes concrete block, stone, aluminum siding, and other types. Data prior to 2005 include fiber cement. Data prior to 1992 include vinyl siding.

RSE	20	73	34	15	37	36	55	(NA)	(NA)	(NA)	(NA)	(NA)	(NA)	(NA)

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

^{1&}quot;Contractor-Built" houses are built for owner occupancy on the owner's land under the supervision of a general contractor.

² Includes concrete block, stone, aluminum siding, and other types. Data prior to 2005 include fiber cement. Data prior to 1992 include vinyl siding.

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

² Includes concrete block, stone, aluminum siding, and other types. Data prior to 2005 include fiber cement. Data prior to 1992 include vinyl siding.

Footnotes:

RSE - Relative Standard Error (percent)

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Contractor-Built" houses are built for owner occupancy on the owner's land under the supervision of a general contractor.

² Includes concrete block, stone, aluminum siding, and other types. Data prior to 2005 include fiber cement.

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

A - Represents an RSE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes concrete block, stone, aluminum siding, and other types.

²"Contractor-Built" houses are built for owner occupancy on the owner's land under the

supervision of a general contractor.

³Includes concrete block, stone, aluminum siding, and other types that are different from the primary type of "other" material.

Secondary Type of Exterior Wall Material of New Single-Family Houses Completed With Primary Exterior Wall Material of Other¹: Owner-Built²

RSE	2	6	6	18	(NA)	(NA)	(NA)	(NA)

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹Includes houses built for rent (not shown separately).

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

RSE	20	29	24	39	(NA)	(NA)	(NA)	(NA)			

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Beginning in 2008 for units For Rent, and in 1999 for units For Sale Not Yet Sold, type of financing was not collected, but was assumed to be in proportion to that of completed homes for which financing was collected. Beginning in 2013, units For Rent and units For Sale Not Yet Started are shown separately, not by Type of Financing.

For 1999-2007 for units For Rent, type of financing was collected and the units are included in Type of Financing.

¹Includes houses built for rent (not shown separately until 2013).

²Includes other types of financing (not shown separately).

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

^{1&}quot;Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

²Includes other types of financing (not shown separately).

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

^{1&}quot;Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

²Includes other types of financing (not shown separately).

RSE	2	41	13	30	(NA)	(NA)	(NA)	(NA)

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹Includes houses built for rent (not shown separately).

²Includes raised supports such as pilings and piers, and other types.

RSE	3	45	14	33	(NA)	(NA)	(NA)	(NA)

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

²Includes raised supports such as pilings and piers, and other types.

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

²Includes raised supports such as pilings and piers, and other types.

RSE	2	4	27	97	72	(NA)	(NA)	(NA)	(NA)	(NA)

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹Includes houses built for rent (not shown separately).

²Includes natural gas and bottled or liquified petroleum gas (including propane).

³Includes heating oil and kerosene.

⁴Includes wood, coal, solar, and other types.

RSE	3	5	25	(A)	78	(NA)	(NA)	(NA)	(NA)	(NA)

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

²Includes natural gas and bottled or liquified petroleum gas (including propane).

³Includes heating oil and kerosene.

⁴Includes wood, coal, solar, and other types.

RSE	20	20	38	97	81	(NA)	(NA)	(NA)	(NA)	(NA)

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹"Contractor-Built" houses are built for owner occupancy on the owner's land under the supervision of a general contractor.

²Includes natural gas and bottled or liquified petroleum gas (including propane).

³Includes heating oil and kerosene.

⁴Includes wood, coal, solar, and other types.

RSE	20	24	53	(A)	54	(NA)	(NA)	(NA)	(NA)	(NA)

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

²Includes natural gas and bottled or liquified petroleum gas (including propane).

³Includes heating oil and kerosene.

⁴Includes wood, coal, solar, and other types.

RSE	2	4	24	34	37	(NA)	(NA)	(NA)	(NA)	(NA)

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹Includes houses built for rent (not shown separately).

²Includes both air source and geothermal (ground source) versions.

³Includes electric baseboard, panel, radiant heat, space heater, floor or wall furnace, solar, and other types.

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

²Includes both air source and geothermal (ground source) versions.

³Includes electric baseboard, panel, radiant heat, space heater, floor or wall furnace, solar, and other types.

RSE	20	22	36	34	57	(NA)	(NA)	(NA)	(NA)	(NA)

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹"Contractor-Built" houses are built for owner occupancy on the owner's land under the supervision of a general contractor.

²Includes both air source and geothermal (ground source) versions.

³Includes electric baseboard, panel, radiant heat, space heater, floor or wall furnace, solar, and other types.

RSE	20	25	77	51	33	(NA)	(NA)	(NA)	(NA)	(NA)

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

²Includes both air source and geothermal (ground source) versions.

³Includes electric baseboard, panel, radiant heat, space heater, floor or wall furnace, solar, and other types.

RSE	37	66	29	97	77	(NA)	(NA)	(NA)	(NA)	(NA)

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes houses built for rent (not shown separately).

²Includes natural gas and bottled or liquified petroleum gas (including propane).

³Includes heating oil and kerosene.

⁴Includes wood, coal, solar, and other types.

⁵Includes both air source and geothermal (ground source) versions.

⁶Includes electric baseboard, panel, radiant heat, space heater, floor or wall furnace, solar, and other types.

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

²Includes natural gas and bottled or liquified petroleum gas (including propane).

³Includes heating oil and kerosene.

⁴Includes wood, coal, solar, and other types.

 $^{^{\}rm 5}$ Includes both air source and geothermal (ground source) versions.

⁶Includes electric baseboard, panel, radiant heat, space heater, floor or wall furnace, solar, and other types.

By Type of Heating System: Contractor-Built¹ (Components may not add to totals because of rounding. Percents computed from unrounded figures.)

Footnotes: RSE - Relative Standard Error (percent)

NA - Not available

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

A - Represents an RSE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent
S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes houses built for rent (not shown separately).

Footnotes: RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

^{1&}quot;Contractor-Built" houses are built for owner occupancy on the owner's land under the supervision of a general contractor.

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

A - Represents an RSE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

RSE	2	23	5	11	30	23	(NA)	(NA)	(NA)	(NA)	(NA)	(NA)

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹Includes houses built for rent (not shown separately).

²Data prior to 1992 include garages for 3 cars or more.

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

²Data prior to 1992 include garages for 3 cars or more.

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹"Contractor-Built" houses are built for owner occupancy on the owner's land under the supervision of a general contractor.

²Data prior to 1992 include garages for 3 cars or more.

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

²Data prior to 1992 include garages for 3 cars or more.

RSE	6	8	9	9	12	4	17	6	6	9	

Footnotes:

RSE - Relative Standard Error (percent)

A - Represents an RSE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

RSE	2	6	5	2	4	2	3	2	6	4	2	3	2	4

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Beginning in 2008 for units For Rent, and in 1978 for units For Sale Not Yet Sold, type of financing was not collected, but was assumed to be in proportion to that of completed homes for which financing was collected. Beginning in 2013, units For Rent and units For Sale Not Yet Started are shown separately, not by Type of Financing.

For 1978 - 2007 for units For Rent, type of financing was collected and the units are included in Type of Financing.

¹Includes houses built for rent (not shown separately until 2013).

²Includes other types of financing (not shown separately).

Footnotes:

RSE - Relative Standard Error (percent)

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed Z Less than 500 units or less than 0.5 percent
- $\ensuremath{\mathsf{S}}$ Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Data prior to 1999 include 3 to 4 units.

Footnotes:

RSE - Relative Standard Error (percent)

A - Represents an RSE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹ Includes units for sale as condominiums or cooperatives; may also include units where ownership of the entire property is acquired, both land and improvements.

RSE	24	23	57	(NA)	(NA)	(NA)

Footnotes:

RSE - Relative Standard Error (percent)

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹ Includes units for sale as condominiums or cooperatives; may also include units where ownership of the entire property is acquired, both land and improvements.

Footnotes:

RSE - Relative Standard Error (percent)

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes wood, coal, solar and other types (not shown separately).

²Includes natural gas and bottled or liquified petroleum gas (including propane).

³Includes heating oil and kerosene.

Footnotes:

RSE - Relative Standard Error (percent)

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes wood, coal, solar and other types (not shown separately).

²Includes natural gas and bottled or liquified petroleum gas (including propane).

³Includes heating oil and kerosene.

¹ Includes units for sale as condominiums or cooperatives; may also include units where ownership of the entire property is acquired, both land and improvements.

² Includes wood, coal, solar and other types (not shown separately).

³ Includes natural gas and bottled or liquified petroleum gas (including propane).

⁴ Includes heating oil and kerosene.

Footnotes:

RSE - Relative Standard Error (percent)

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes both air source and geothermal (ground source) versions.

Footnotes:

RSE - Relative Standard Error (percent)

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Footnotes:

RSE - Relative Standard Error (percent)

A - Represents an RSE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Footnotes:

RSE - Relative Standard Error (percent)

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹ Includes units for sale as condominiums or cooperatives; may also include units where ownership of the entire property is acquired, both land and improvements.

RSE - Relative Standard Error (percent)

A - Represents an RSE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹All units in building are included in one size category based on average number of square feet per housing unit. The average was calculated using total square feet of all floors based on exterior dimensions divided by number of housing units in the building.

Footnotes:

RSE - Relative Standard Error (percent)

A - Represents an RSE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹All units in building are included in one size category based on average number of square feet per housing unit. The average was calculated using total square feet of all floors based on exterior dimensions divided by number of housing units in the building.

Number of Multifamily Units Completed by Square Feet per Unit: Built for Sale¹ (Components may not add to totals because of rounding. Percents computed from unrounded figures.)

RSE	4	4	7	3	3	7
NOE	4	4	/	3	3	/

Footnotes:

RSE - Relative Standard Error (percent)

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹ The average was calculated using total square feet of all floors based on exterior dimensions divided by the number of housing units in the building.

² Includes units for sale as condominiums or cooperatives; may also include units where ownership of the entire property is acquired, both land and improvements.

2013	2	1	1	(Z)	100	58	31	11
RSE	20	32	28	14	(NA)	(NA)	(NA)	(NA)

Footnotes:

RSE - Relative Standard Error (percent) NA - Not available

A - Represents an RSE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Data prior to 2013 include 3 floors.

Footnotes:

RSE - Relative Standard Error (percent)

A - Represents an RSE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Data prior to 1999 include buildings with 3 to 4 units.

Footnotes:

RSE - Relative Standard Error (percent)

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Footnotes:

RSE - Relative Standard Error (percent)

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹ Includes buildings where units are for sale as condominiums or cooperatives; may also include units where ownership of the entire property is acquired, both land and improvements.

Footnotes:

RSE - Relative Standard Error (percent)

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Includes buildings where units are for sale as condominiums or cooperatives; may also include units where ownership of the entire property is acquired, both land and improvements.

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

RSE	3	30	19	9	9	(NA)	(NA)	(NA)	(NA)	(NA)

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

RSE - Relative Standard Error (percent)

A - Represents an RSE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

RSE - Relative Standard Error (percent)

A - Represents an RSE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Footnotes:

RSE - Relative Standard Error (percent)

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

(Components may not add to total due to rounding. Percents computed from unrounded figures.)

Footnotes:

RSE - Relative Standard Error (percent)

A - Represents an RSE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

(Components may not add to total due to rounding. Percents computed from unrounded figures.)

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹ Includes concrete block, stone, aluminum siding, and other types. Data prior to 2005 include fiber cement. Data prior to 1992 include vinyl siding.

Footnotes:

RSE - Relative Standard Error (percent)
NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- $\dot{\text{S}}$ Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹ Includes concrete block, stone, aluminum siding, and other types. Data prior to 2005 include fiber cement.

Footnotes:

RSE - Relative Standard Error (percent)
NA - Not available

A - Represents an RSE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

 $^{^{\}rm 1}$ Includes concrete block, stone, aluminum siding, and other types. Data prior to 2005 include fiber cement.

Secondary Type of Exterior Wall Material of New Single-Family Houses Sold (Components may not add to total due to rounding. Percents computed from unrounded figures.)

Footnotes:

RSE - Relative Standard Error (percent)

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹ Includes concrete block, stone, aluminum siding, and other types. Data prior to 2005 include fiber cement.

Secondary Type of Exterior Wall Material of Detached New Single-Family Houses Sold (Components may not add to total due to rounding. Percents computed from unrounded figures.)

Footnotes:

RSE - Relative Standard Error (percent)

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹ Includes concrete block, stone, aluminum siding, and other types. Data prior to 2005 include fiber cement.

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

A - Represents an RSE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes other types of financing (not shown separately).

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes raised supports such as pilings and piers, and other types.

Type of Foundation in Attached New Single-Family Houses Sold (Components may not add to total due to rounding. Percents computed from unrounded figures.)

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes raised supports such as pilings and piers, and other types.

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes raised supports such as pilings and piers, and other types.

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes natural gas and bottled or liquified petroleum gas (including propane).

²Includes heating oil and kerosene.

³Includes wood, coal, solar, and other types.

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

A - Represents an RSE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes both air source and geothermal (ground source) versions.

²Includes electric baseboard, panel, radiant heat, space heater, floor or wall furnace, solar, and other types.

Footnotes:

RSE - Relative Standard Error (percent)

Note: Beginning in 1992, lot sizes greater than 25 acres are tabulated as 25 acres. Prior to 1992, lot sizes greater than 2.5 acres were tabulated as 2.5 acres. Prior to 1999, data included condominiums, but totals included only those houses reporting size of lot.

A - Represents an RSE that is greater or equal to 100 percent or could not be computed Z - Less than 500 units or less than 0.5 percent
S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Lot sizes greater than 25 acres were tablulated as 25 acres.

Footnotes:
RSE - Relative Standard Error (percent)
NA - Not available
A - Represents an RSE that is greater or equal to 100 percent or could not be computed
Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate

RSE	2	27	4	2	6	6	12	18	8	6

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Lot sizes greater than 25 acres were tablulated as 25 acres.

Prior to 1999, data included condominiums.

Footnotes:

RSE - Relative Standard Error (percent)

A - Represents an RSE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Footnotes:

RSE - Relative Standard Error (percent)

- A Represents an RSE that is greater or equal to 100 percent or could not be computed
- Z Less than 500 units or less than 0.5 percent
- S Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

New Single-Family Housing Units Sold by Price per Square Foot by Sales Price (Price per square foot of floor area excludes value of improved lot. Components may not add to totals because of rounding. Percents computed from unrounded figures.)

Footnotes:

RSE - Relative Standard Error (percent)

A - Represents an RSE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Footnotes:

RSE - Relative Standard Error (percent)

A - Represents an RSE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes other types of financing (not shown separately).

Footnotes:

RSE - Relative Standard Error (percent)

A - Represents an RSE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

RSE	3	19	4	(NA)	(NA)	(NA)

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

A - Represents an RSE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Footnotes:

RSE - Relative Standard Error (percent)

A - Represents an RSE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

RSE	4	14	6	6	7	4	8	10	8			

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

A - Represents an RSE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹ Includes other types of financing (not shown separately).

RSE	2	11	3	3	10	3	8	3	4	11		

Footnotes:

RSE - Relative Standard Error (percent)

A - Represents an RSE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review
